

FORESTGIFT

REAL EARTH LEGACY

Forest for Industries

“

We don't
plant trees.

We build sustainable
organizations.

EXECUTIVE SUMMARY

Forest is a structured, measurable sustainability operating system embedded into your organization through employee life events and leadership initiatives.

It transforms everyday moments into :

Consistent environmental action

Strong internal culture

Measurable sustainability outcomes

This is not a one-time activity it is a continuous system integrated into company operations.

THE PROBLEM WE SOLVE

Low employee
emotional engagement

Fragmented or symbolic
sustainability efforts

Lack of measurable
environmental contribution

Weak alignment between
values and daily behavior

OUR SOLUTION FOREST SYSTEM

Employee
moments

Environmental
actions

Sustainable
habits

Measurable
impacts

01

EMPLOYEE BIRTHDAY SYSTEM (CORE ENGINE)

What We Do :

- Every employee birthday is mapped and tracked
- A tree is planted on behalf of the employee
- Birthday celebration is conducted (recognition-focused)
- Digital certificate issued with unique Tree ID
- Employee is integrated into Forest ecosystem

What This Creates :

Personal emotional connection between employee and impact

Visible recognition culture inside the company

Annual recurring engagement cycle

Stronger belonging and identity

Outcomes :

- Increased participation in company initiatives
- Culture shift from transactional to emotional
- Higher employee satisfaction

02

SUSTAINABLE ME FRAMEWORK (BEHAVIOR SYSTEM)

What We Deliver:

- Structured sustainability guide (physical + digital)
- Simple daily routines for employees
- Office-level practices: paper reduction, energy efficiency, and waste management.
- Habit-building system (practical, not theoretical)

Implementation Approach:

- Easy-to-follow checklists
- Department-level adoption
- Periodic reinforcement

Outcomes:

- Employees become active sustainability contributors
- Long-term behavioral transformation
- Reduced resource consumption
- Lower operational waste

03

LEADERSHIP LEGACY FOREST (STRATEGIC LAYER)

What We Build:

- Dedicated plantation cluster for leadership
- Named forest identity (company/leader-specific)
- Premium certification and documentation
- Long-term tracking and association

Strategic Value :

Positions leadership
as future-focused

Creates a long-term
brand narrative
asset

Builds emotional
authority internally
and externally

Outcomes :

- Legacy creation beyond business performance
- Strong leadership positioning
- Long-term storytelling for brand and culture

04

FOREST DASHBOARD (DATA & MEASUREMENT LAYER)

What We Provide:

- Total trees planted
- Approximate CO₂ offset
- Employee participation rate
- Sustainability performance indicators

How It Is Used:

Internal tracking by
HR and leadership

Periodic review
of engagement
levels

Supporting
documentation for
sustainability reporting

Outcomes :

- Structured sustainability narrative
- Clear visibility of impact
- Data-backed decision making

05

BRANDING & EMPLOYER POSITIONING

What We Enable:

- “Green Company” positioning support
- Visibility in Forest ecosystem and events
- Highlighting employee participation stories
- Monthly storytelling content around your impact

Strategic Impact:

Builds credibility
among stakeholders

Strengthens
employer brand

Aligns company
image with modern
sustainability expectations

Outcomes :

- Increased attractiveness to young talent
- Stronger public perception
- Differentiation from competitors

06

ESG ACTIVITY SUPPORT (POSITIONED CAREFULLY)

What We Provide:

- Structured activity data
- Documented impact summaries
- Content support for internal/external reporting

Important Positioning:

This supports ESG initiatives but is not a certification framework.

Outcomes :

- Better reporting readiness
- Organized impact documentation
- Improved sustainability communication

BUSINESS IMPACT (CONSOLIDATED)

CULTURAL IMPACT

- Higher emotional connection with organization
- Stronger employee engagement
- Visible and participative culture

OPERATIONAL IMPACT

- Reduction in waste and resource usage
- Adoption of sustainable daily practices
- Improved internal discipline

STRATEGIC IMPACT

Measurable sustainability system

- Strong brand positioning
- Long-term legacy creation

WHAT WE REQUIRE FROM YOUR ORGANIZATION

- ☒ Employee birthday data access
- ☒ One internal coordinator (HR/Operations)
- ☒ Communication channel access
- ☒ Support for participation and adoption
- ☒ Commitment to system continuity

WHAT MAKES FOREST DIFFERENT

Integrated
into company
workflow

Recurring,
not
one-time

Combines
emotion +
data

Scalable
across
teams and
locations

Built for
long-term
adoption

POSITIONING STATEMENT

“

Forest is not a plantation initiative.

It is a structured sustainability system
embedded into your organization.
